

American Spin-a-Batch Suspended Centrifuge

Revolutionary Pneumatic Over-Bath Spinning

- ◆ One man Operation
- ◆ Increased Production Rates - to 1700 lbs (772 kg) per man-hour
- ◆ New 4000 Series with 4000 lbs (1818 kg) capacity
- ◆ Positive Breaking - Either direction
- ◆ Reversible spinning
- ◆ Piston Type Air Motor
- ◆ Variable Speed Control - Either direction
- ◆ Proven Reliability - Operating throughout North America and 22 countries
- ◆ Proven Technology - Fourth generation design since origination in 1970
- ◆ Proven Profitability – Increased batch sizes, decreased labor, and reduced zinc usage, reduced wire usage
